MEMORANDUM FOR: Deputy Director of Central Intelligence

THROUGH : Acting Deputy Director (Plans)

SUBJECT : C-130B Aircraft

1. This memorandum is in response to your questions concerning actions which could be taken to increase the range of the C-130B. From the chart with Attachment A you will note that increase in range results in decrease in payload. Range with in-flight refueling is limited only by amount of engine oil consumed per hour but the aircraft could carry 20,000 pounds 16,000 miles.

2. This Division has completed and forwarded a study on the 130B which shows its growth potential as well as time required to achieve an operational configuration which is aimed specifically at the [REDACTED]. A copy of this study is attached herewith as Attachment B. The DD/P plans to review this paper on his return and present his recommendations to you and the Director.
